Dear Harmon:

I am presently trying to raise money to support the 1992 Gordon Conference on *Proteinases and Their Inhibitors*. Your generous support in the past is much appreciated and I would hope that you might be able to help us once again. I have requested \$15,000 from NIH. The Gordon Conference will give us \$12,000. Even should we receive the entire amount from NIH, we still will be about \$4,800 short for support of the speakers. I do not, however, expect to receive the full amount from NIH. In 1990, for example, we received no support at all from this source.

I am enclosing the budget page from the NIH grant and the program for the conference. Please let me know if you need any other information.

I assume that you will be at the CTR non-agenda meeting in February and I look forward to seeing you then.

Sincerely,
